

Info On Private Labeling For Your Business

We can provide private labeling a lot of different ways for people. What most people do is, after the back and front label are designed and I have them, all you would do is call me and place your order. I would then print the labels, make the product, put it all together and ship it out. Depending on the size of the order, we can ship within 2 - 3 business days. There is a minimum of 12 each per product.

The cost is the same for private labeling as it is for my own product.

As far as the label, if you have a logo in a PDF or JPEG you can send it to me. I can work up a basic front label for you, if you have someone that can design one, I can give them all the info needed. The info on the back will be the same as mine but I would take out my contact info and put yours in. If I design your label, there is a one time \$50 set up charge, and is good for any and all products you private label with us.

(The only products we can not private label are, Jimbo's Spice Rubs, Winterport Dips and Bakewell Cream & Bakewell Baking Powder products.)
